

# We advocate for you

Kidney Cancer Canada believes that all kidney cancer patients must have access to quality information, national standards of care and proven treatments. We advocate to government and teach patients and caregivers how to make their voices heard in the healthcare system.

**We are the only Canadian charitable support and advocacy organization focused exclusively on kidney cancer.**

**Are you a kidney cancer patient or caregiver? Get in touch!**

# KIDNEY CANCER?

---

## WE CAN HELP

**INFORMATION • SUPPORT • ADVOCACY**

**FOR CANADIANS TOUCHED BY KIDNEY CANCER**

# If you or someone you know is touched by kidney cancer, we can help.

**"It was a difficult time after my diagnosis but thankfully I found support from Kidney Cancer Canada."**

HÉLÈNE VEILLEUX, PATIENT

## We're here to help

Patients formed Kidney Cancer Canada in 2006 for patients and caregivers. We are a national community of patients, caregivers and health professionals who work to provide every Canadian touched by kidney cancer with support, education and advocacy for their care pathways and treatment options.

### PEER SUPPORT

Call or email us for confidential, one-on-one support. We match patients and caregivers with trained volunteers who share a similar cancer experience.

### DISCUSSION FORUM

Join our online community to connect with other patients and caregivers. Follow the stories of others, post questions, or share your own story.

## We provide free resources every step of the way

Access information when you need it and ask questions to medical experts on our website, at in-person meetings and on our popular webinars. Our information is reviewed regularly by the Kidney Cancer Canada Medical Advisory Board. Explore topics such as:

- **What is kidney cancer?**
- **Key questions to ask your doctor**
- **Kidney cancer specialists in Canada**
- **Treatment options and protocols**
- **Clinical trials in Canada**
- **Managing side effects**

**"We are so grateful to Kidney Cancer Canada for its critical help to navigate our care."**

MARIANNE AND PAUL,  
CAREGIVER AND PATIENT

## We support kidney cancer research

Through the Kidney Cancer Research Network of Canada, we fund research initiatives answering key questions around the potential causes and best ways to treat kidney cancer.

**"Kidney Cancer Canada is important to our family because we want more research into earlier detection and better treatment."**

VIDYA AND VEENA, CAREGIVERS
